Multirail Crown

bright picture hanging system

Quality and Innovation

Hang It Up Systems distributes only high quality products that are manufactured under strict supervision. Many of the products that Hang It Up offers are international award winners. Hang It Up's systems are the product of choice for homes, offices, universities, museums, art galleries, and government institutions.

Product Description

The Multirail Crown system is a unique and patented art suspension system for direct screw fastening to the wall, and comes equipped with 12 volt power rail. The Multirail crown is an exceptionally sturdy and solid profile, which can be almost invisibly concealed behind the crown moulding of your choice. Multirail Crown is a revolutionary system with an unprecedented number of possibilities. You can hang paintings, photos, posters and postcards in the blink of an eye! Easily movable light fittings can be clicked into the rail anywhere you like. In addition, the Multirail Crown is capable of suspending and powering the new 12volt Powerhook which allows you to hang and power 12volt digital picture frames without batteries or unsightly supply cords.

Application

The Multirail Crown system is suitable for both new construction and renovations to existing properties, and is very appealing when installed in classical buildings. As the Multirail Crown is concealed behind a moulding, the walls are left uncluttered allowing viewers to focus solely on the items being displayed. Multirail Crown is easily installed by handy DIY enthusiasts and professional contractors alike. Multirail Crown is easily integrated into plaster, wood and urethane crown mouldings and chair rails, prior to moulding installation. Corner connections are created easily by mitering the rail.
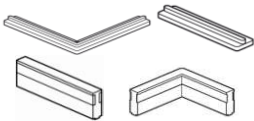

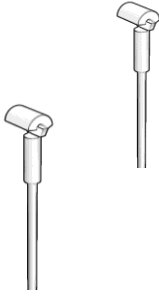

Features

- Aluminum rail - Available in White
- Profile 38mm x 11mm
- Capable of carrying loads up to 45kg per meter
- 12V System (Low-voltage supply)
